## NSW Health Mobile School Dental Program

NSW Health is working with public schools to offer free dental check-ups and preventive care to students as part of a school-based mobile dental program. Your child's school has been selected to participate in this program.

The program is available to all students in Year 7 – 9 and involves a mobile dental team making scheduled visits to your child's school. During the first appointment a dental check-up and preventive care package will be provided, subject to parental consent.

NSW Health prioritises the health, well-being and safety of your staff and students. The program will utilise all available information provided by NSW Health, the Australian Government and the World Health Organisation (WHO) in relation to COVID-19. Our staff have implemented and reinforced a number of additional, proactive health and safety measures to ensure we can continue to provide your students with the best and safest experience possible.

**The program is scheduled to visit Richmond High School from 22/11/2023 to 1/12/2023.**

Parent Information and Consent Packs will be sent home, including information sheets, consent forms and the program privacy statement. Parents/guardians who want their child to receive care are advised to:

1. Read all the information provided
2. Carefully complete the consent forms
3. Return the consent forms to the school as soon as possible

More information about the program is available on the NSW Health website:
